

THE ICTP EXPERIENCE. The International Centre for Theoretical Physics (ICTP) in Trieste, Italy, has published an interesting collection of interviews with visiting scientists from developing countries. *The ICTP and its Scientific Visitors* features interviews with 31 of the more than 4000 scientists from 100 countries who come to the ICTP each year. The book is described as providing the first detailed account of the kind of work that scientists carry out at ICTP and the benefits which they have gained. More information is available from the ICTP, P.O. Box 586, 34100 Trieste, Italy.
